Sociology

MAJORS

Sociology, BA or BS

Sociology: Anthropology, BA or BS

Sociology: Applied Sociology, BA or BS

Sociology: Pre-Law, BS

Sociology: Pre-Medical Sciences, BS

Sociology is the systematic study of human society, including patterns of social interaction, power relationships, organizations and culture. As a sociology major, you will explore questions such as: How is social media changing the ways we relate to one another? Why do we have problems such as racism? Are men and women really that different? Why are some people poor? By examining how the social world influences the way we think, feel and act, sociology improves understanding of ourselves and others. You will learn to apply scientific reasoning and methodologies to study social situations and institutions that make up society.

PROGRAM HIGHLIGHTS

- 3+3 Law option for early admission
- Many opportunities within law, crime and social justice including courses in Criminology, Juvenile Delinquency, Advanced Forensics and Courts and Judicial Process
- Many students interested in social services pursue this program and take courses like Sociology of Health and Illness, Adolescent Development in Family Contexts, Family Risk and Resilience and Community Health
